EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claims 1-33 and 51-62 have been cancelled as being directed to a non-elected invention, the election having been made without traverse in the response dated 5-7-2007.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested the formation of an insulating sleeve which included winding a first band having a metal foil superimposed on a thermally insulating fabric and a second band having a metal foil superimposed on a scrim layer along a spiral path and adhering the first band to the second band. The closest prior art suggested that it was known to form a tubular shaped insulating sleeve from a fabric and a metal foil as suggested by the references to Louart et al, Brushafer et al, and Conaghan et al, the references did not teach the formation of the insulating tubes therein in a spiral winding process which included winding a first band having a metal foil superimposed on a thermally insulating fabric and a second band having a metal foil superimposed in a scrim.

Art Unit: 1733

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
